

Presentation Prototype de sidescroller 2D

The background of the screen is a stylized space scene. At the top, a dark blue sky is filled with small white stars. A large, light blue planet with a white ring is visible in the upper right. Below the planet, a white space robot is shown in motion, leaving a long, curved white trail. The lower half of the screen is dominated by a jagged, brown silhouette of a mountain range. The foreground is a solid orange-yellow color.
